Introduction to the Grand Jury Process

The last two years of covid-19 have been different than other years. The world's governments have responded in a way we have not seen before. Our communities have been shut down for periods of time and there has been pressure to get tested and vaccinated. In many ways it has been a confusing time with conflicting information. It can be difficult to know what and who to trust. So before you are introduced further to the Grand Jury process, here is the background and for it, including who is leading it.

Background on the Grand Jury Process.

In June 2020, four attorneys formed **the Berlin Corona Investigation Committee**. The lead lawyer in this group, as well as in the Grand Jury process, is **Dr. Reiner Fuellmich**, who in his time, among others, convicted **Volkswagen** of cheating on emissions from their diesel cars (**Dieselgate**), as well as Deutsche Bank. The Corona Inquiry Commission has conducted over 100 hearings of experts from around the world, totalling around 500 hours. Based on this, they have found that it is now time for a Grand Jury trial (inspired by American legal tradition), where evidence is presented to decide whether to indict for Crimes against Humanity.

The purpose of the Grand Jury process is:

1. to present evidence to the people of the world at a People's Court called: The Peoples Court of Public Opinion. The goal is to give the public the full picture of what is going on. The process is facilitated by a group of highly regarded and successful lawyers and one judge. Expert witnesses in various fields will testify in the case.
2. Assess and decide whether to indict Christian Drosten, Anthony Fauci, Tedros Adhanom Ghebreyesus (WHO), Bill Gates, Black Rock and Pfizer for crimes against humanity

Summary of day 1 on 5 February 2022 - Opening remarks

The background of the Grand Jury process, the legal basis (Natural Law) including the legal practice in the US was reviewed by two US lawyers and the judge. Dr. Reiner Fuellmich gave an overview of various facts pointing to a planned crime against humanity with lots of lies. The "vaccines" have proven to be anything but safe! There are alternative and safe treatments for covid-19, - used with great success. And it was argued that even if a lie is repeated thousands of times, it is still a lie.
